Directors' report

The Directors of Fidante Partners Services Limited, the Responsible Entity of Credit Suisse Global Private Equity Fund (the Trust), present their report together with the annual general purpose financial report of the Trust for the year ended 30 June 2025.

The Trust is an Australian Registered Managed Investment Scheme. Fidante Partners Services Limited, the Responsible Entity of the Trust, is incorporated and domiciled in Australia. The registered office of the Responsible Entity is Level 2, 5 Martin Place, Sydney NSW 2000.

Directors

The following persons held office as Directors of Fidante Partners Services Limited during the year and up to the date of this report, unless otherwise stated:

A Bofinger	Director	
A Judin	Director	
J O'Keeffe	Director	(Resigned 31 January 2025)
E Reedman	Director	(Appointed 31 January 2025)
V Rodriguez	Director	
T Roxburgh	Director	

Principal activities and significant changes in the state of affairs

The Asset Manager of the Trust is Credit Suisse Investment Services (Australia) Limited (the Asset Manager).

The principal activity of the Trust during the year was to invest in accordance with the provisions of the Trust's governing documents. The investment strategy of the Trust was to invest in global private equity investments via a Canadian Limited Partnership, Merchant Banking Partners IV (Pacific) L.P. (the Limited Partnership), a private equity investment vehicle managed by aPriori Capital Partners L.P. (the General Partner).

On 20 May 2025, the Responsible Entity received the Limited Partnership's dissolution certificate which has enabled the formal termination of the Trust to commence. On 29 May 2025, the Directors of Fidante Partners Services Limited, determined to terminate the Trust in accordance with the Trust's Constitution. The final termination payment was made on 12 June 2025 and the Trust was terminated on 13 August 2025.

During the year, the Trust's investment administration function transferred from Artega Investment Administration Pty Ltd to State Street Global Advisors.

There were no other significant changes in the nature of the Trust's activities or to the state of affairs of the Trust during the year.

Operating and financial review

The results of the operations of the Trust for the year include the distributions paid and payable on a cents per unit (CPU) basis. The CPU represents the distribution paid by the Trust to unitholders for each individual unit held in the Trust.

The table below shows historical discrete annual return performance of the Trust for the past two years. Performance is calculated after all fees, except any entry fees that have been deducted, and assumes that all distributions were reinvested during that year. The total return is the aggregate of capital growth and distribution of income.

The Indirect Cost Ratio (ICR) represents the annualised percentage of indirect costs incurred by the Trust over the Trust's average net assets attributable to unitholders for the year.

The results of the Trust were as follows:

Directors' report (continued)

	2025	2024
	\$	\$
For the year ended 30 June		
Net profit/(loss) for the year	(296)	48,096
Distributions paid and payable	12,203	385,000
For the year ended 30 June	2025	2024
Capital growth (%)	—	(72.30)
Distribution of income (%)	—	240.06
Total return (%)	—	167.76
Distributions paid and payable (CPU)	0.07	2.35

The indirect costs can include management costs and other costs as indicated in the Trust's governing documents. Indirect costs may also include performance fees if permitted by the Trust's governing documents. These costs are typically deducted from the Trust's assets rather than paid directly by the unitholders of the Trust.

Significant events after the balance date

On 29 May 2025, the Directors of Fidante Partners Services Limited determined to terminate the Trust following receipt of the underlying partnership's dissolution certificate. The wind-up of the Trust commenced from this date in accordance with the Trust's Constitution. Subsequent to year end, the Trust lodged its final Business Activity Statement and settled an amount due to the ATO on 13 August 2025. The Trust terminated on this date.

At the date of this financial report, no other matter or circumstance has arisen that has affected, or may significantly affect the Trust's operations, the results of those operations or the Trust's state of affairs in future financial years, which has not already been reflected in this report.

Likely developments and expected results

On 29 May 2025, the Directors of Fidante Partners Services Limited determined to terminate the Trust following receipt of the underlying partnership's dissolution certificate. The wind-up of the Trust commenced from this date in accordance with the Trust's Constitution. Subsequent to year end, the Trust lodged its final Business Activity Statement and settled an amount due to the ATO on 13 August 2025. The Trust terminated on this date.

Indemnification and insurance of directors and officers

No insurance premiums are paid for out of the assets of the Trust in regards to insurance cover provided to the officers of Fidante Partners Services Limited. So long as the officers of Fidante Partners Services Limited act in accordance with the Trust's Constitution and the Corporations Act 2001, the officers remain indemnified out of the assets of the Trust against losses incurred while acting on behalf of the Trust. The auditors of the Trust are in no way indemnified out of the assets of the Trust.

Fees paid to and interests held in the Trust by the Responsible Entity or its related entities

Fees paid to the Responsible Entity and its related entities out of the Trust's assets during the year are disclosed in note 8 to the financial statements.

No fees were paid out of Trust assets to the Directors of the Responsible Entity during the year.

Interests in the Trust held by the Responsible Entity or its related entities as at the end of the financial year are disclosed in note 8 to the financial statements.

Directors' report (continued)

Interests in the Trust

The movement in units on issue in the Trust during the year is disclosed in note 2 to the financial statements.

Value of Trust assets

The value of the Trust's assets and liabilities is disclosed in the statement of financial position and derived using the basis set out in note 1.2 to the financial statements.

Environmental regulation and performance

The operations of the Trust are not subject to any particular or significant environmental regulations under a Commonwealth, State or Territory law.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 6.

Authorisation

Signed in accordance with a resolution of the Directors of the Responsible Entity.

A handwritten signature in black ink, appearing to be 'A Judin', written over a circular stamp or seal.

A Judin

Sydney
22 September 2025

Auditor's independence declaration to the directors of Fidante Partners Limited

As lead auditor for the audit of the financial report of Credit Suisse Global Private Equity Fund for the financial year ended 30 June 2025, I declare to the best of my knowledge and belief, there have been:

- a. No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit;
- b. No contraventions of any applicable code of professional conduct in relation to the audit; and
- c. No non-audit services provided that contravene any applicable code of professional conduct in relation to the audit.

The statement of cash flows should be read in conjunction with the accompanying notes.

Notes to the financial statements

1. Basis of preparation and overarching material accounting policies

These financial statements cover the Credit Suisse Global Private Equity Fund (the Trust) as an individual entity. The Trust is an Australian registered managed investment scheme and was constituted on the below date. The Trust will terminate on the below date unless terminated earlier in accordance with the provisions of the Trust's Constitution.

Trust name	Constitution date	Termination date
Credit Suisse Global Private Equity Fund	7 June 2006	7 June 2086

The financial report of the Trust for the year ended 30 June 2025 was authorised for issue in accordance with a resolution of the Directors on 22 September 2025.

The nature of the operating and principal activities of the Trust are described in the Directors' report.

1.1. Basis of preparation

Basis of preparation

The accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

The financial report is a general purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001 (Cth), Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board.

As the Trust is expected to be terminated within 12 months of year end, the going concern basis of preparation is no longer appropriate and the financial statements have been prepared on a termination basis. The termination basis means the assets have been written down to the lower of the carrying amounts and net realisable value and liabilities have been recognised to the extent there was a present obligation at the reporting date. The accounting policies set out below have been applied within this context. Adopting the termination basis did not change the carrying amounts of any assets or liabilities.

The Trust is a for-profit entity for the purposes of preparing financial statements.

The statement of financial position is presented on a termination basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current.

Unless stated otherwise, the financial report is presented in Australian dollars and has been prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

Statement of compliance

The financial report complies with Australian Accounting Standards as issued by the Australian Accounting Standards Board (AASB) and International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

New accounting standards and interpretations

All new accounting standards that are applicable to the Trust for the 30 June 2025 reporting period have been adopted and do not have a material impact on the financial statements.

There are no new accounting standards and interpretations that have been issued, but not yet effective, that are material to the financial statements or have been early adopted for the 30 June 2025 reporting period.

Foreign currency

Both the presentation currency and the functional currency of the Trust are Australian dollars.

1. Basis of preparation and overarching material accounting policies (continued)

Transactions in foreign currency are translated into the Trust's functional currency at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated into Australian dollars at the foreign exchange rate ruling at the statement of financial position date.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the historical exchange rate as at the date of the transaction.

Non-monetary items measured at fair value in a foreign currency are translated to the functional currency using the exchange rate ruling at the date when the fair value was determined.

Transactions and balances

Transactions in foreign currencies are initially recorded at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rate of exchange at the reporting date.

Comparatives

Where necessary, comparative figures have been reclassified to conform to any changes in presentation made in this financial report.

1.2. Summary of material accounting policies

Investment income and interest expense

Investment income may include net gains or losses from financial instruments. Where applicable, these net gains include all realised and unrealised fair value changes. Any foreign exchange differences, interest, dividends and distributions are recorded as separate line items in the statement of comprehensive income. Where applicable, interest income and interest expense are recognised using the effective interest method, and dividend and distribution income are recognised when the Trust's right to receive payment is established.

The Trust has not applied hedge accounting.

Expenses

Expenses are recognised on an accrual basis at the fair value of the consideration paid or payable for services rendered.

Expenses may include management costs, operation costs and transaction costs. Management costs include management fees and recoverable expenses as permitted by the Trust's governing documents. Expenses may also include performance fees if permitted by the Trust's governing documents. Expenses are recognised in the statement of comprehensive income.

Taxes

Under the current legislation, the Trust is not subject to income tax as all assessable income, exempt income and non-assessable income will be attributed to unitholders under the AMIT regime.

Financial instruments at fair value may include unrealised capital gains. Should such a gain be realised, the portion of the gain that is subject to capital gains tax will be attributed so that the Trust is not subject to capital gains tax.

Realised capital losses are not attributed to unitholders but are retained in the Trust to be offset against any realised capital gains. If realised capital gains exceed realised capital losses, the excess is attributed to unitholders.

The benefit of imputation credits and foreign tax paid are passed on to unitholders.

1. Basis of preparation and overarching material accounting policies (continued)

Goods and services (GST)

The Trust qualifies for Reduced Input Tax Credits (RITC) at various applicable rates.

Revenues, expenses and assets are recognised net of the amount of GST, except when the GST incurred on a sale or purchase of assets or services is not payable to or recoverable from the taxation authority, in which case the GST is recognised as part of the revenue or the expense item or as part of the cost of acquisition of the asset, as applicable.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

Cash flows are included in the statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority is classified as part of operating cash flows.

Cash and cash equivalents

Cash and cash equivalents are financial assets with fixed or determinable payments and comprise of cash at bank, cash held with custodian and short-term deposits with an original maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value. Cash and cash equivalents are recognised at fair value. For the purposes of the statement of cash flows, cash and cash equivalents are stated net of any outstanding bank overdrafts.

Payments and receipts relating to the purchase and sale of investment securities at fair value are classified as cash flows from operating activities, as movements in the fair value of these securities form a part of the Trust's income generating activity.

Financial instruments

Classification

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Recognition/derecognition

The Trust recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in fair value of the financial assets or financial liabilities from this date.

Investments are derecognised when the right to receive cash flows from the investments has expired or the Trust has transferred substantially all risks and rewards of ownership.

Measurement

At initial recognition, the Trust measures financial assets and financial liabilities at fair value. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in the statement of comprehensive income.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value are presented in the statement of comprehensive income. For further details on how the fair values of financial instruments are determined please refer to note 7.

1. Basis of preparation and overarching material accounting policies (continued)

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

Financial assets at fair value through profit or loss

Financial assets are categorised as financial assets - fair value through profit or loss. The classification depends on the definition and the purpose for which the investments were acquired. The classification of investments is determined at initial recognition and evaluated at each reporting date.

Purchases and sales of financial assets are recognised on the date on which the Trust commits to purchase or sell the asset. A financial asset (or, where applicable, a part of a financial asset or a part of a group of similar financial assets) is derecognised where the rights to receive cash flows from the asset have expired, or the Trust has transferred its rights to receive cash flows from the asset, or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement and the Trust has:

- Transferred substantially all of the risks and rewards of the asset; or
- Neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

These include financial assets that are not held for trading purposes and which may be sold. These are global private equity investments via a Canadian Limited Partnership, Merchant Banking Partners IV (Pacific) L.P. (the Limited Partnership), a private equity investment vehicle managed by aPriori Capital Partners L.P. (the General Partner).

Financial assets measured at amortised cost

A debt instrument is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Trust includes in this category short-term non-financing receivables including cash collateral posted on derivative contracts, accrued income and other receivables.

Financial liabilities at fair value through profit or loss

Derivative contracts that have a negative fair value are presented as financial liabilities at fair value through profit or loss.

Net assets attributable to unitholders

Private equity investments, such as those to be made by the Limited Partnership, are generally illiquid investments and as a consequence, the Trust has been structured so that investors in the Trust cannot redeem their units during the Term of the Trust. However, a special liquidity facility to provide liquidity to certain unitholders has been arranged for the following limited circumstances:

- that a sole unitholder dies and the personal representatives of that unitholder requests the redemption; and
- based on written evidence provided by at least one Commonwealth department or agency responsible for administering a class of Commonwealth income support payments, that a unitholder has received Commonwealth income support payments for a continuous period of at least 26 weeks and was in receipt of payments of that kind on that date of the written evidence and is unable to meet reasonable and immediate family living expenses.

Units issued by the Trust are redeemable for cash at the unitholders' option at any time based on the redemption price. The fair value of redeemable units is measured using the redemption unit price at the reporting date if unitholders were to exercise their right to redeem units in the Trust.

1. Basis of preparation and overarching material accounting policies (continued)

Units are classified as equity when they satisfy the following criteria under AASB 132 Financial Instruments: Presentation (AASB 132):

- the puttable financial instrument entitles the holder to a pro rata share of net assets in the event of the Trust's liquidation;
- the puttable financial instrument is in the class of instruments that is subordinate to all other classes of instruments and class features are identical;
- the puttable financial instrument does not include any contractual obligations to deliver cash or another financial asset, or to exchange financial instruments with another entity under potentially unfavourable conditions to the Trust, and it is not a contract settled in the Trust's own equity instruments; and
- the total expected cash flows attributable to the puttable financial instrument over the life are based substantially on the profit or loss and cannot be guaranteed.

At 30 June 2025, unitholder funds were classified as equity as they satisfied all of the criteria under AASB 132.

Use of estimates

The Trust's investment in the underlying Limited Partnership is carried at fair value based on the Trust's interest in the net assets of the Limited Partnership as advised by the General Partner. The Limited Partnership's investment in portfolio companies are valued at fair value which requires the Limited Partnership manager to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes, the actual results could differ from these estimates. However, because of the inherent uncertainty of the valuation, these estimated values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material.

The valuation of Credit Suisse Global Private Equity Fund's investment in the Limited Partnership for the year ended 30 June 2025 was prepared based on audited financial statements of the Limited Partnership as at 31 December 2024.

2. Net assets attributable to unitholders

As stipulated in the Trust's Constitution, each unit represents a right to an individual share in the Trust and does not extend to a right to the underlying assets of the Trust.

The number of separate classes of units in the below listed Trust is as follows.

Trust	Separate classes of units
Credit Suisse Global Private Equity Fund	One

Each unit in the Trust has the same rights, preferences and restrictions attaching to it as all other units of the Trust.

Applications received for units in the Trust are recorded net of any entry fees payable prior to the issue of units in the Trust. Redemptions from the Trust are recorded gross of any exit fees payable after the cancellation of units redeemed.

Income not distributed is included in net assets attributable to unitholders. Where unitholder funds are classified as equity, movements in net assets attributable to unitholders are recognised in the statement of changes in unitholder funds.

Terms and conditions on units

Each unit issued confers upon the unitholder an equal interest in the Trust, and is of equal value per class. A unit does not confer any interest in any particular asset or investment of the Trust. Unitholders have various rights under the Constitution and the Corporations Act 2001, including the right to:

- have their units redeemed;
- receive income distributions;
- attend and vote at meetings of unitholders; and

2. Net assets attributable to unitholders (continued)

– participate in the termination and winding up of the Trust.

Movements in the number of units and net assets attributable to unitholders during the year were as follows:

Net assets attributable to unitholders	No.	\$
Classification of net assets attributable to unitholders as at 30 June	Equity	Equity
As at 1 July 2024 - Opening Balance	16,402,219	12,499
Redemptions of units	(16,402,219)	—
Distributions paid and payable	—	(12,203)
Total comprehensive income/(loss) for the year - Equity	—	(296)
As at 30 June 2025 - Closing Balance	—	—

Net assets attributable to unitholders	No.	\$
Classification of net assets attributable to unitholders as at 30 June	Equity	Equity
As at 1 July 2023 - Opening Balance	16,402,219	349,403
Redemptions of units	—	—
Distributions paid and payable	—	(385,000)
Total comprehensive income/(loss) for the year - Equity	—	48,096
As at 30 June 2024 - Closing Balance	16,402,219	12,499

	2025	2024
	\$	\$
Total net assets attributable to unitholders	—	12,499

This Trust was terminated on 13 August 2025.

Capital risk management

The Trust is a close ended Trust that does not accept new investments after an initial application. Private equity investments, such as those to be made by the Limited Partnership, are generally illiquid investments and as a consequence, the Trust has been structured so that unitholders in the Trust cannot redeem their units during the term of the Trust. Unitholders are only able to withdraw from the Trust on the grounds of financial hardship.

Net realised capital losses

At the end of the reporting period, the Trust had net realised capital losses available to offset against future net realised capital gains. Net realised capital losses are not finalised for taxation purposes, and may change due to calculation adjustment, denial, offset or recoupment and are as follows:

As at 30 June	2025	2024
Net realised capital losses	\$	\$
Credit Suisse Global Private Equity Fund	—	1,842,120

3. Distributions to unitholders

In accordance with the Trust's Constitution, the Trust distributes income adjusted for amounts determined by the Responsible Entity to unitholders by cash or reinvestment. Where unitholder funds are classified as equity, these distributions are recognised in the statement of changes in unitholder funds.

The distributions for the year are presented below in dollars (\$) and cents per unit (CPU) for each class.

3. Distributions to unitholders

	\$	CPU
Distributions		
Distributions paid - May 2025	12,067	0.07
Distributions payable - June 2025	136	—
Total distributions - 30 June 2025	12,203	0.07
Special distributions paid - 12 April 2024	300,000	1.83
Distributions payable - June 2024	85,000	0.52
Total distributions - 30 June 2024	385,000	2.35

The component of the final distribution for the year which was unpaid at the reporting date is shown in the statement of financial position.

The final termination payment has occurred on 12 June 2025 and the Trust was terminated on 13 August 2025.

4. Receivables

Receivables may include GST RITC, application monies, interest, dividends, trust distributions and other income accrued and unsettled trade purchases. They are recognised when the right to receive payment is established and are generally recovered within 30 days. The Trust measures expected credit losses on a 12-month basis. Given the nature of the Trust's receivables and the limited exposure of the Trust to credit risk, no material expected credit losses have been recognised.

Amounts recoverable from related entities have no fixed repayment term and are non-interest-bearing.

All receivables are considered current.

As at 30 June	2025	2024
	\$	\$
Interest receivable	—	192
Total receivables	—	192

5. Offsetting financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. As at 30 June 2025 there are no financial assets and financial liabilities that have been offset in the statement of financial position (2024: \$Nil). As at 30 June 2025, the Trust has no netting arrangements which, if applied, would have a material impact on the disclosure of financial assets and liabilities.

6. Financial risk management

Overview

The Trust's activities can expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The Trust's overall risk management program focuses on ensuring compliance with the Trust's governing documents and seeks to maximise the returns derived for the level of risk to which the Trust is exposed. The Trust may use derivative financial instruments to alter certain risk exposures. The Responsible Entity is responsible for identifying the financial risks that arise from these financial instruments and for ensuring there are mechanisms in place to manage these risks.

The allocation of assets between the various types of financial instruments is determined by the Trust's Asset Manager who manages the Trust's assets to achieve the Trust's investment objectives.

6. Financial risk management (continued)

Divergence from target allocations and the composition of the assets is monitored on a regular basis.

The Responsible Entity has a Risk Management Strategy in place for managing risk and the key elements of the Risk Management Framework (RMF). The risks covered by the RMF include, but are not limited to, financial risks, for example: market, investment, pricing risks, funding, liquidity and counterparty risk; as well as regulatory, strategic and operational risks. The key elements for managing these risks include:

- Documented policies and procedures;
- Post trade investment compliance monitoring by teams not involved in the dealing and investment management activity;
- Segregation of the dealing and investment management function from the investment administration and settlement function;
- Independently sourced valuations for securities;
- A risk and compliance team and Responsible Entity management team with separate reporting lines;
- Clearly defined reporting lines and accountability for managing risks;
- Clearly defined responsibility for maintaining the RMF and monitoring compliance with it; and
- Oversight of risk management activity and the risk profile of the business by the Board of the Responsible Entity and various risk and compliance and committees that the Responsible Entity, and its ultimate parent, have established.

As part of its Risk Management Strategy, the Trust may use derivatives including exchange traded derivatives, to manage exposures resulting from changes in index prices, equity risks and exposures arising from forecast transactions.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market factors. Market risk includes (amongst others) three types of risk: interest rate risk (due to fluctuations in interest rates), currency risk (due to fluctuations in foreign exchange rates), and equity price risk (due to fluctuations in market prices).

The Trust is exposed to market risks influencing investment valuations. The Trust may utilise derivatives to manage this risk.

Price risk

Price risk is the risk that the value of an instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

The Asset Manager assesses global private equity investments via a Canadian Limited Partnership, Merchant Banking Partners IV (Pacific) L.P. (the Limited Partnership), a private equity investment vehicle managed by aPriori Capital Partners L.P. Potential losses arising from the price risk are limited to the carrying value of the investment in the Limited Partnership. The fair value of the underlying investments is derived using inputs, some of which are unobservable. Refer to the summarised sensitivity analysis section of this note for further detail.

Foreign exchange risk

Trusts that invest in international assets are exposed to foreign exchange risk. Foreign exchange risk is the risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Asset Manager may enter into derivatives contracts (such as forwards, swaps, options and futures) through approved foreign exchange dealers to minimise risk. However, the use of these contracts must be consistent with the investment strategy and restrictions of the Trust, and agreed acceptable level of foreign exchange risk.

The Trust had a direct exposure to foreign currency risk through its investments in the Limited Partnership as this investment is denominated in currencies other than Australian dollars.

The table below summarises the Trust's assets and liabilities that are denominated in a currency other than the Australian dollar.

6. Financial risk management (continued)

	2025 USD \$	2024 USD \$
Financial assets		
Cash and cash equivalents	—	56,208
Limited Partnership investment	—	—
Total USD financial assets	—	56,208
AUD/USD spot rate at 30 June	—	0.66785
Total AUD financial assets	—	84,163

The table in the summarised sensitivity analysis section of this note summarises the sensitivities of the Trust's financial instruments to foreign exchange risk. The analysis is based on the assumption that the Australian dollar weakened or strengthened by 10% (2024: 10%) against the material foreign currencies to which the Trust is exposed.

Cash flow and fair value interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Interest rate risk is not considered to be a significant risk to the Trust as the majority of the Trust's financial instruments are non-interest bearing with only cash and cash equivalents being directly subject to interest rate risk.

Summarised sensitivity analysis

The following table summarises the sensitivity of the Trust's net profit and net assets attributable to unitholders to applicable market risks. The possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical levels of changes in interest rates, foreign exchange rates and market prices. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the Trust invests. As a result, historic variations in risk variables are not a definitive indicator of future variations in the risk variables.

	Impact on net profit/ Net assets attributable to unitholders	
	Foreign exchange risk	
	-10%	+10%
	USD	USD
	A\$	A\$
30 June 2025	—	—
30 June 2024	(8,414)	8,414

Credit risk

Credit risk is the risk that one party to a financial instrument will cause financial loss to the other party by failing to discharge an obligation. The Trust aims to ensure that at all times it has appropriate credit risk management policies and practices in place and that the Board and senior management are appropriately informed of the Trust's credit risks.

Credit risk is not considered to be a significant risk to the Trust as the Trust does not hold any direct investments in debt securities or have significant receivables.

6. Financial risk management (continued)

Liquidity risk

Liquidity risk is the risk that the Trust will encounter difficulty in raising funds to meet cash commitments associated with financial instruments. This may result from either the inability to sell financial assets at their fair values, a counterparty failing on repayment of a contractual obligation, or the inability to generate cash inflows as anticipated. The nature of private equity is that unit holder capital is committed for the long term and therefore, the Trust is generally illiquid.

Maturity analysis for financial liabilities

Financial liabilities of the Trust comprise trade and other payables. Trade and other payables and distributions payable have no contractual maturities but are typically settled within 30 days.

7. Fair value measurement

All financial assets and financial liabilities included in the statement of financial position are carried at fair value.

The Trust's investment in the Limited Partnership is valued based on the Trust's ownership percentage of the underlying investments in the Limited Partnership.

The Trust's investment in the Limited Partnership is carried at fair value based on the Trust's interest in the net assets of the Limited Partnership as advised by the Merchant Banking Partners IV (Pacific) L.P., a private equity investment vehicle managed by aPriori Capital Partners L.P. The Limited Partnership's portfolio of investments in companies are valued at fair value which requires the Limited Partnership's manager to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes, the actual results could differ from these estimates. However, because of the inherent uncertainty of the valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material.

In accordance with AASB 13 Fair Value Measurement the Trust is required to disclose fair value measurements by level using the fair value hierarchy. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2); and
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

Fair value in an active market (level 1)

The fair values of financial assets and liabilities traded in active markets are based on their quoted market prices at the reporting date without any deduction for estimated future selling costs. Financial assets are priced at current bid prices at the reporting date, while financial liabilities are priced at current offer prices.

The quoted market price used for financial assets held by the Trust is the current bid price; the appropriate quoted market price for financial liabilities is the current asking price. When the Trust holds derivatives with offsetting market risks, it uses mid-market prices as a basis for establishing fair value for the offsetting risk positions and applies this bid or asking price to the net open position, as appropriate.

Fair value in an inactive or unquoted market (level 2 and level 3)

The fair values of financial assets and liabilities that are not traded in an active market are determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of other substantially similar instruments, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the reporting date applicable for an instrument with similar terms and conditions. For other pricing models, inputs are based on market data at the end of the reporting period.

7. Fair value measurement (continued)

The fair values of derivatives that are not exchange traded are estimated at the amount that the Trust would receive or pay to terminate the contract at reporting date taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date. The fair value of an option contract is determined by applying the Black Scholes option valuation model.

Movement in level 3 instruments

The following tables present the movement in level 3 instruments for the Trust by class of financial instrument.

	\$
Opening balance as at 1 July 2024	—
Sales	—
Distributions	—
Net gains recognised in profit or loss	—
Closing balance as at 30 June 2025	—
Total realised losses for the year included in the statement of comprehensive income for the financial instruments held during the year	—

	\$
Opening balance as at 1 July 2023	167,515
Sales	(356,896)
Distributions	—
Net gains recognised in profit or loss	189,381
Closing balance as at 30 June 2024	—
Total unrealised gains for the year included in the statement of comprehensive income for the financial instruments held during the year	189,381

The investment in the Limited Partnership is classified within level 3 as it has significant unobservable inputs.

The investment in the Limited Partnership is carried at fair value based on the Trust's interest in the net assets of the Limited Partnership as advised by the Merchant Banking Partners IV (Pacific) L.P., a private equity investment vehicle managed by aPriori Capital Partners L.P. The Limited Partnership's net assets include a portfolio of zero (2024: 2) active investments in various unquoted equities that are carried at fair value using unobservable inputs, estimates and valuation techniques.

The unobservable inputs used in determining the fair value of the level 3 investments vary depending on the nature of each investment. As such, the Responsible Entity considers the main input into the fair value of the level 3 investment is the Trust's partnership interest in the Limited Partnership, as advised by the Limited Partnership's General Partner. Refer to the summarised sensitivity analysis section of note 6 for further detail.

8. Related party transactions

Responsible Entity

The Responsible Entity of the Trust is Fidante Partners Services Limited whose immediate parent company is Challenger Funds Management Holdings Pty Limited and ultimate parent company is Challenger Limited.

Key management personnel

Directors

Key management personnel includes persons who were Directors of Fidante Partners Services Limited at any time during the financial year and up to the date of the report as follows:

8. Related party transactions (continued)

A Bofinger	Director	
A Judin	Director	
J O'Keeffe	Director	(Resigned 31 January 2025)
E Reedman	Director	(Appointed 31 January 2025)
V Rodriguez	Director	
T Roxburgh	Director	

Other key management personnel

The Responsible Entity is considered to be the key management personnel with authority for the strategic direction and management of the Trust.

The Asset Manager, Credit Suisse Investment Services (Australia) Limited, is a related party to the Trust as it is a member of the same group as the Responsible Entity.

Key management personnel unitholdings

At 30 June 2025 no key management personnel held units in Trust (2024: Nil).

Key management personnel compensation

No amount was paid by the Trust directly to the Directors of the Responsible Entity.

Compensation is paid to the Responsible Entity in the form of fees and is disclosed below.

Responsible Entity's fees and other transactions

Under the terms of the Trust's Constitution the Responsible Entity is entitled to receive management costs, calculated by reference to the average daily net assets. For the year ended 30 June 2025 these rates are as follows:

For the year ended 30 June		Fee Rate	
		2025	2024
Trust name	Class	%	%
Credit Suisse Global Private Equity Fund	Retail Class	0.00	0.00

Effective 1 November 2022, the Trust stopped accruing and charging for management fees and other expenses.

These fees are inclusive of GST, net of RITC available to the Trust per annum.

All related party transactions are conducted on normal commercial terms and conditions. The transactions during the year and amounts receivable and payable at year end between the Trust and the Responsible Entity were as follows:

	2025	2024
	\$	\$
Expense recoveries for the year	—	161,767

9. Reconciliation of profit/(loss) to net cash inflows/(outflows) from operating activities

Reconciliation of profit/(loss) to net cash inflows/(outflows) from operating activities

For the year ended 30 June	2025 \$	2024 \$
Reconciliation of profit/(loss) to operating cash flow		
Net profit/(loss) for the year	(296)	48,096
Net (gains)/losses on financial instruments at fair value through profit or loss	—	(189,161)
Net foreign exchange (gains)/losses	891	(10,329)
Proceeds from sale of financial instruments at fair value through profit or loss	—	356,895
Purchase of financial instruments at fair value through profit or loss	(128)	(224)
Net change in receivables and other assets	192	521
Net cash inflows/(outflows) from operating activities	659	205,798

Components of cash and cash equivalents

As at 30 June	2025 \$	2024 \$
Cash at bank, on hand and at custodian	136	97,307
Total cash and cash equivalents	136	97,307

10. Remuneration of auditor

For the year ended 30 June	2025 \$	2024 \$
Amounts received or due and receivable by Ernst & Young for:		
Audit and review of the financial report of the Trust	10,296	10,045
Total remuneration of auditor	10,296	10,045

The cost incurred for auditing the financial report of the Trust is paid directly by the Responsible Entity.

11. Events occurring after the reporting period

Subsequent to year end, the Trust lodged its final Business Activity Statement and settled an amount due to the ATO on 13 August 2025. The Trust terminated on this date.

12. Contingent assets and liabilities and commitments

At balance date the Trust has no contingent assets, liabilities or credit commitments (30 June 2024: Nil).

Directors' declaration

In the opinion of the Directors of the Responsible Entity for Credit Suisse Global Private Equity Fund:

- a. the financial statements and notes set out on pages 7 to 23 are in accordance with the Corporations Act 2001, including:
 - i. complying with Australian Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements; and
 - ii. giving a true and fair view of the Trust's financial position as at 30 June 2025 and of its performance for the financial year ended on that date;
- b. the financial statements and notes comply with International Financial Reporting Standards as disclosed in note 1.1; and
- c. there are reasonable grounds to believe that the Trust will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of Directors.

On behalf of the Board of Fidante Partners Services Limited.

A Judin
Director

Sydney
22 September 2025

Independent auditor's report to the unitholders of Credit Suisse Global Private Equity Fund

Opinion

We have audited the financial report of Credit Suisse Global Private Equity Fund (the "Trust"), which comprises the statement of financial position as at 30 June 2025, the statement of comprehensive income, statement of changes in net assets attributable to unitholders and statement of cash flows for the year then ended, notes to the financial statements, including material accounting policy information, and the declaration of the directors of Fidante Partners Services Limited (the directors), the Responsible Entity of the Trust.

In our opinion, the accompanying financial report of the Trust is in accordance with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the Trust's financial position as at 30 June 2025 and of its financial performance for the year ended on that date; and
- b. Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report. We are independent of the Trust and the Responsible Entity in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter - basis of accounting

We draw attention to Note 1 of the financial report, which describes the basis of accounting. The Trust terminated on 13 August 2025. As a result, the financial report has been prepared on a basis other than going concern as described in Note 1. Our opinion is not modified in respect of this matter.

Information other than the financial report and auditor's report thereon

The directors of Fidante Partners Services Limited as the Responsible Entity of the Trust (the "Responsible Entity") are responsible for the other information. The other information is the directors' report accompanying the financial report.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

**Shape the future
with confidence**

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Responsible Entity are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors of the Responsible Entity determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors of the Responsible Entity are responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors of the Responsible Entity either intend to liquidate the Trust or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- ▶ Conclude on the appropriateness of the directors' use of the going concern basis of accounting. When such use is inappropriate and the directors use an alternative basis of accounting, we conclude on the appropriateness of the directors' use of the alternative basis of accounting. We also evaluate the adequacy of the disclosures describing the alternative basis of accounting and reasons for its use. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report.
- ▶ Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

**Shape the future
with confidence**

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
